**DETAILED ACTION**

***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(c), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 24, 2009 has been entered.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 2-4, 6-8 and 16-19 are rejected under 35 U.S.C. 101 because the disclosed invention is inoperative and therefore lacks utility. The claim merely sets forth an idea for identifying content which is an abstraction, not a concrete method or a computer program product. According to the examination Guidelines for Computer-Related Inventions, 1206 OG 211, see also M.P.E.P 2106, a statutory process must either result in a physical transformation outside the computer for which a practical application is either disclosed in the specification or would have been known to a skilled artisan, or be limited by the language of the claim to a practical application within the technological arts. For instance, claims 2-4, 6-8 and 16-19 neither result in any physical transformation or recite a practical application within the technological

arts, and are considered to merely manipulate abstract ideas. There is no hardware in the claims. Correction is required.

***Allowable Subject Matter***

3. Claims 2-4, 6-8 and 16-25 allowed.

Applicant's arguments, see pages 13-17, filed on June 24, 2009, with respect to the rejections of claims 2-4, 6-8 and 16-25 have been fully considered and are persuasive; Therefore, respectfully submits that claims 2-4, 6-8 and 16-25 are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
